- HISTORIC WATER WALL** Director of Community Services (Cheryl Wiebe) reported that the Visitors Centre, Peachland Museum and the Sncewips Museum discussed a refined scope for the Historic Water Wall project. The initial project is no longer viable due to availability of model volunteers and model resources. The revised scope will build on the experience at the Peachland Museum and the Sncewips Museum and will include pictures, storyboards, didactics, artifacts and interactive features such as pre-recorded audio highlighting historical people, stories and First Nations phrases in the Sylix, English and French language. The display will highlight the First Nations story of the Four Food Chiefs, the Sylix people and their use of the land. The display will also discuss how Peachland became a settlement from the fur traders – many of whom where French Canadian and Metis, prospectors and those who came to make Peachland home. The project is slated to be complete in February 2018. The committee discussed a new name for the water wall. Ideas included “Legends of the Lake – Peachlands Place in History”. The Water Wall committee will further discuss names and will report back to the Canada 150 committee in January.
- MOVED** by Marion Hall to receive for information. /**CARRIED**
- BUDGET ALLOCATION/REVIEW** The committee reviewed the spending to date and determined to allocate the remaining funds to the Historical Water Wall Project.
- Moved** by Marion Hall that the \$1000 remaining funds be allocated to the Historical Water Wall project/**CARRIED**

Committee next Steps As all projects are currently either complete or underway, the committee will not meet in November and December. There will be a meeting scheduled for January to get an update on the Water Wall project and at that time the committee will determine if any further action is needed or if the committee can be disbanded. (final report to Council)
