

Update on the Residences on 6th:

The Tenant Selection Committee, with the assistance of the Peachland Wellness Centre, finished its difficult task of prioritizing the over 150 applications for tenancy at the Residences on 6th, and shortly thereafter, the Board hired Jodie Brennan as their new Property Manager. Jodie started work at the beginning of December, and immediately went to work organizing the daunting task of assigning units, contacting the new tenants, getting all the right documentation in place, arranging move in dates, and answering a myriad of questions. Unfortunately, on Wednesday, January 3rd, significant water damage occurred at the project, which impacted 20 of the newly finished suites to varying degrees. The investigation as to the cause is ongoing, and it is not yet known if this situation resulted from an accident or an act of vandalism. A damage assessment got underway immediately. This untimely incident has resulted in some delay to the occupancy of the Residences on 6th. Restoration work is underway and the Board hopes to get all the new tenants into the building as soon as possible.
