

## DISTRICT OF PEACHLAND

# NOTICE

Please be advised the District of Peachland has identified an error that resulted from a software provider upgrading their product. This upgrade caused 2019 property tax email notifications to be sent to all owners who are signed up for e-notices. The body of the email includes a link meant to be for the 2020 tax notice; however, once the link and/or attachment is activated, it takes the owner to the 2019 tax notice.

Please accept the District's apology for this error and inconvenience. We ask that you ignore all tax notice emails dated May 25, 2020 and note that the new 2020 property tax notifications are set to be released by the time this edition goes to print.
