

MEMORIAL MARKERS

All memorial markers to be installed on burial plots shall be made of natural stone or bronze. All memorial markers made of bronze shall be centered on a concrete base of not less than 10.16 cm (3.5") thick, supplied and installed by the District, such that a minimum of 10.16 cm (3.5") of the base remains on each side of the marker. All bases shall be supplied and installed by the District at the expense of the License holder and shall be installed so that the top surface of the base is flush with the surrounding ground level.

The maximum size and height of memorial markers shall be as follows:

Adult Grave	Single Marker	40.64cm x 45.72 cm (16" x 18")
Adult Grave	Adjacent Marker	91.40 cm x 30.43 cm (36" x 12")
Child Grave	Single Marker	40.64 cm x 25.4 cm (16" x 10")
Cremation Grave	Single Marker	35.56 cm x 40.64 cm (14" x 16")
Cremation Grave	Adjacent Marker	60.96 cm x 40.64 cm (24" x 16").

Note: Where two persons are buried side by side in adjacent graves, one double memorial marker, which spans both graves, may be used instead of two separate markers, provided the double tablet so used is set to embrace evenly the two graves concerned.
