

# Green Citizen Award Peachland 2018

The Mayor's Task Force on Climate Change will assist Peachland Council to recognize citizens who protect and restore our natural environment. The 'Green Citizen Award' will be given to a Peachland resident or family choosing to act in ways that save energy and water resources to reduce their environmental footprint.

## To help your nominee win Peachland's first Green Citizen Award...

1. Identify a Peachland resident (or family)
2. Provide contact details of your nominee
3. Write a paragraph here ✓ that...
  - Gives specific examples of your nominee's environmental efforts and activities
  - Explains why your nominee is a good green role model .
  - Helps everyone understand the nominee's contributions and—why they should win.
4. Complete this Nomination Form by **12:00 noon on Friday March 8, 2019** and send or take it to ...the District Office at 5806, Beach Ave. Peachland.
5. Elementary school-aged children in Peachland will review the nominations, and assist the Mayor's Task Force to select Peachland's 2018 Green Citizen.
6. The award will be presented at Peachland's Civic Awards night in May 2019.

My Nominee is

Name

Email or phone#

✓ I think he/she / they should win because.....

Attach another sheet of paper if you need more space.

Research has shown that all the categories below have an impact on our 'environmental footprint'. Choosing actions that are more climate-friendly will help us conserve natural resources, cost less money, make our families healthier and our communities more resilient.

Category	Has (or does) your nominee.....	 Yes No Unsure
Energy Use	Switch off lights or electrical equipment when not in use?	
	Changed over to LED lights?	
	Followed energy audit recommendations to ensure best possible home efficiency?	
	Heat or cool their water or home with solar power?	
Water Use	Irrigate their gardens between dusk and dawn only.	
	Landscaped with low-water plants and removed lawn areas to reduce water usage?	
	Capture rain water in a cistern / barrel for use in their gardens?	
Transport	Walk, use a bicycle, or public transport instead of a car ( at least x 3 weekly)?	
	Live without a car, or has a hybrid or electric vehicle?	
Food	Eat a plant-based (non-meat) supper more than twice per week?	
	Grow and /or preserve many of their own fruits and vegetables?	
	Purchase organic /seasonal produce at local farmers markets?	
Community	Participate in local environmental events e.g. stream clean-up, tree-planting etc.?	
	Is a member of a 'green' organization e.g. Sierra Club, David Suzuki Foundation etc.?	

Thank you for your participation
