MEDIA RELEASE #2

January 6, 2017

2:45 p.m.

A small slide has limited traffic on Highway 97 to single lane alternating, just north of Antlers Beach in Peachland. Equipment and emergency crews are on site, along with staff and geotechnical engineers. The slide has ruptured a sewer main in the same location, and emergency temporary repairs are underway.

BC Hydro crews are on site monitoring a power pole that has been undermined. Power will be out for customers from Lipsett Street south, to the Fish Lake area for a period of time that is expected to be fairly brief, beginning mid-afternoon today.

No residences are in danger, and no one has been injured. Residents in the area are urged to reduce their sewer use as much as possible (minimal flushing, no showers, limit water use) until further notice.

We will post updates on the District of Peachland website as information becomes available.
