Mr. Robert Fine, Executive Director, Economic Development Commission, updated Council on the EDC's Business Retention Program. The purpose of the program is to grow businesses that are already here. 170 business visits have been conducted this year, with a goal of 200 by December 31<sup>st</sup>. The intent is to build a competitive advantage over other communities. Ms. Tracy Frederickson outlined the criteria used for the visits, and noted the visits are to gather information and focus on solution finding. The top three challenges noted by business are: (1) marketing and planning; (2) human resource issues; and (3) financial issues. Mr. Fine concluded by advising that assistance to Peachland businesses may come through a study of why dollars are leaking to other communities, through a residents' survey, and involving the Chamber of Commerce and Peachland Economic Development Committee.

Mr. Fine and Ms. Frederickson were thanked for their excellent presentation and hard work through the regional EDC.

The pilot project self check-out machines generally are used 20%; in Peachland, they were used 63% in just 2 to 3 months. It is planned to add 5 hours per week to the Peachland Branch in 2005. The circulation in Peachland has increased from 24,916 items in 1989 to 70,000 items in 2002.

While she supports the development of a skateboard park, she urged Council to look at other locations.

**SKATEBOARD PARK LOCATION**

The Director of Planning & Development Services presented a report advising that a resolution to designate the Skateboard Park location in the north-east corner of Cousins Park, south of the PDRS building, was tabled at the October 14, 2003 Regular Meeting.

Councillor Hurd spoke of the work involved researching locations and listing pros and cons of each, resulting in this location being most suitable for skateboard park development.

Council members commented as follows:

Councillor Fraser: too much public opposition and seniors are against; is opposed to this location.

**SKATEBOARD PARK LOCATION (CONT.)** Councillor Henderson: supports work of Councillor Hurd and development of a skateboard park, but users were not consulted as to location; must be an alternate site, and will vote against this one.  
Councillor Reid: there is a need to establish a location; is pleased to see a community organization established; the process should involve the community; have the committee review locations and involve the youth; take more time.  
Councillor Moritz: is a driving force for a skateboard park; request staff to clarify original provisions of how Cousins Park came to be; does the OCP require a change for specific use of a specific area of a park; staff provide a diagram of the area with all setbacks included; interested in Skateboard Park committee's considerations regarding preferred locations.

MOVED by Councillor Reid, SECONDED by Councillor Henderson:

THAT the location for skateboard park development be tabled until a presentation is received from the Skateboard Park Association regarding locations.

**YATES BOUNDARY  
EXTENSION & WATER  
SERVICE**

The Director of Planning & Development Services presented a report which was tabled at the October 14, 2003 Regular Meeting. Since that time, a letter has been received from the Regional District outlining why CORD would not establish a local service area for only 2 properties. His recommendation to Council is to not include the Yates property within District boundaries, and to give three readings to the water service establishment bylaw to provide water to the Yates property.

Council members discussed this issue as follows:

Councillor Hurd: water is precious, but storage is the problem on Trepanier Creek; Council has just authorized \$135,000 expenditure for the on/off ramp and fire protection for Brent Road, both outside District boundaries.

Councillor Moritz: at the last meeting, legal issues were raised and discussed In Camera; the letter from CORD is not signed; tough to rely on this information, need the best possible.

Administrator: advised that signed letter can be obtained, and read the e-mailed letter from H. Hettinga, Director of Engineering Services, CORD.

Councillor Reid: noted the following points outlined in his letter to Council of October 17, 2003:

- the previous Council approved the connections, when concerns had been expressed regarding water supply from Trepanier Creek
- the previous Council approved the connections at a meeting to which the public was excluded

**YATES (CONT.)**

- the approval was given during the nomination period for local government elections
- experienced Council members, past Mayor Waldo and Councillor Fraser, who seconded the motion, would not have recognized that this was not an 'In Camera' item and would be unlawful if approved there
- the Administrator did not inform current Council that the motion had been passed and that work was proceeding
- proper procedures in obtaining Regional District approval (where Mayor Harriman would have become aware) were not pursued
- a recent e-mail letter from former Councillor Gough states that the recommendation was brought to Council by Administrator Jmaeff
- a report to Council dated Oct. 3, 2002 came from the Administrator
- the Administrator informed current Council he could not remember how this request came forward
- this is not a matter of correcting a past error by previous Council; not a matter of simple revenue versus expense Analysis of the cost of servicing these properties.
- principal involved is the valuable and scarce water resource from Trepanier Water System to be supplied to properties outside District boundaries
- only this Council can authorize water connections to Yates property
- urged Council to hold Mr. Yates to his request, stated in open Council, that his properties be included within the municipal boundaries

Director of Operations: responded to a question that a single family home would use 500 to 800 litres of water per day.

Councillor Henderson: requested a change of wording and agreement with CORD; previous Council passed a resolution in good faith, but based on bad advice.

The Director of Planning & Development Services advised that the restrictive covenant is not signed yet; Mr. Yates has been advised not to sign until the Bylaw has received three readings.

Mayor Harriman: a mistake was made in the past; the property owner acted in good faith and will pay the same water rates as Peachlanders; \$5,000 for each of 2 connections has been paid to the District; follow staff recommendations and proceed; a survey on water pressure concluded no problem with supplying water to the Yates property; Council could approve the connections this one time.

The Administrator clarified that the survey on water pressure indicated no impact on the system to supply water to Yates; the previous Council approved this water service; a mistake was made taking it In Camera, but with legal implications and covenants involved, it was felt In Camera was the proper place, until Councillor Reid brought it up this year; upon receiving legal advice, it should have been dealt with at Open Council. This was not a request from Mr. Yates.

Councillor Reid noted that is the first time that information has been provided.

**YATES (CONT.)**

MOVED by Councillor Hurd, SECONDED by Mayor Harriman:

THAT due to the financial impacts on the District of Peachland, Council not initiate the boundary extension process to include the property located at 4713 MacKinnon Road;

AND THAT the District give three readings to Bylaw Number 1695, 2003 to permit the provision of two water services to Mr. Yates' property located at 4713 MacKinnon Road.

**DEFEATED.**
