BIOGRAPHY

My key priorities are:

- Ensuring that the needs and rights of all students are addressed.
- Maintaining and promoting academic excellence throughout the school district.
- Preparing students for life after K-12.
- True consultation with parents and the community.
- A reassessment of School District priorities, including an updated Long-Term Facility plan, and a catchment review.
- Adequate resources and supports for the implementation of the new Grade 10 -12 education program.
- Reasonable, responsible, effective funding for Public Education

At the Board Table:

- researching topics before voting is **essential**;
- questioning recommendations is **vital**;
- taking time to make the right decision is **critical**.

I have consistently shown my commitment to consultation with parents and the community. This was evident throughout my many years as a parent advocate, and since I have been a school trustee.

Please visit my website to learn about my volunteer work in the Central Okanagan.
