

Biography  
Mario Vucinovic

I am a proud husband and father of two. My wife is a hospital nurse, my son plays competitive baseball, and goaltending is my daughters passion. I am currently an electrical safety officer with Technical Safety BC and serve the Peachland area along with other cities and districts. I earned university degrees in Fine Arts and Education. I also hold a seat as municipal councillor for the District of Peachland.

Peachland has the foundation to build a safe, sustainable and progressive community. The citizens of Peachland need to advocate for one another and continue to voice their opinions and concerns.

As an incumbent I will continue to listen to our citizens and attempt to balance growth within a community framework that enhances our community; keeping the community unique and diverse as the residents that reside here.
